1. Introduction

1.1 Purpose

This document describes what the School Billing & Fee Management System will do, what the school will receive at delivery, and how the system will work day to day. It is written so that school management and office staff can read it, confirm that it matches their needs, and approve it before development is finalized.

1.2 Project Overview

Today, fee collection in most schools depends on registers, manual calculation and handwritten receipts. This leads to calculation mistakes, lost records, difficulty tracking who has paid, and slow reporting. The proposed system replaces this with a single billing application where the school office can register students, calculate the correct fee automatically from the school's fee structure, collect payment, print receipts, and see pending dues at any time.

1.3 Objectives

- Calculate every fee automatically and correctly, based on the student's class.
- Generate a numbered receipt for every payment, ready to print.
- Keep a complete fee history for every student.
- Show pending and overdue fees instantly, so follow-up is easy.
- Give management daily, monthly and class-wise collection reports.
- Remove dependence on paper registers and manual totals.

1.4 Definitions

Term	Meaning
Tuition Fee	Monthly fee charged per class. For Class III and above it already includes Rs. 125 Computer Fee.
Prospectus Fee	One-time fee for the admission prospectus/form.
Admission Charge	One-time fee charged when a student is newly admitted.
Term Fee	Fee payable twice a year, in May and October.
Receipt	Printed proof of payment given to the parent.
Dues	Fees that were due but not yet paid.

2. What You Will Receive (Deliverables)

- The School Billing & Fee Management System, installed and working, with the school's fee structure pre-loaded.
- Login accounts for the Admin (principal/management) and Office Staff (fee counter).
- Printable fee receipts carrying the school name and receipt number.

- Reports for collection, pending dues and class-wise summaries.
- A user guide explaining each screen in simple steps.
- Training for office staff on daily use.
- Backup of the data and instructions on how to restore it.
- Support period after go-live: [duration to be agreed].

3. System Users and Roles

Role	Who	What they can do
Admin	Director / Principal	Everything: manage fee structure, users, reports, corrections, backups.
Office Staff	Fee counter / accountant	Register students, collect fees, print receipts, view dues.
Parent (optional, future)	Student's guardian	Not in the first version; see Section 9.

4. Features

4.1 Login and Access Control

- Each user logs in with a username and password.
- Staff cannot change the fee structure or delete records; only Admin can.
- Every payment records which user entered it.

4.2 Student Management

- Add a student with name, class, parent/guardian name, phone number, address and admission date.
- Search a student by name, admission number, class or phone.
- Edit details or mark a student as left/inactive without losing fee history.
- Promote students to the next class at year end.

4.3 Fee Structure Management

- The school's fee structure (Section 5) is stored in the system, class by class.
- Admin can update an amount when the school revises fees. New amounts apply from the date of change; old receipts are not affected.

4.4 Fee Billing and Collection

- Select a student and the system shows exactly what is payable: monthly fee, term fee, and for new students the prospectus and admission charges.
- Staff select which months/fees are being paid, and the total is calculated automatically.

- Payment modes: Cash, UPI, Cheque, Bank Transfer [to be confirmed].
- Part payment is supported; the balance stays as due.
- Advance payment of several months at once is supported.

4.5 Receipts

- A unique, sequential receipt number is generated for each payment.
- The receipt shows student name, class, fees paid with month, amount, mode, date and the staff member who received it.
- Receipts can be printed or saved as PDF, and reprinted later if lost.

4.6 Dues and Reminders

- A list of students with unpaid months or terms, filtered by class or month.
- Total pending amount per student and per class.
- Printable due list for follow-up with parents. SMS/WhatsApp reminders can be added later (Section 9).

4.7 Reports

- Daily collection report (cash vs. other modes).
- Monthly collection report.
- Class-wise collection and dues report.
- Fee-head-wise report (tuition, term, admission, prospectus).
- Student ledger: full payment history of one student.
- Export to Excel/PDF.

4.8 Backup

- Data backup can be taken on demand and restored if the computer fails.

5. School Fee Structure

This is the fee structure that will be loaded into the system. All amounts are in Indian Rupees (Rs.). The system picks the correct amount automatically from the student's class, so staff never have to calculate manually.

5.1 Monthly Tuition Fees

Class	Tuition (Rs.)	Computer Fee (Rs.)	Monthly Total (Rs.)
Nursery (NUR)	1190	-	1190
LKG	1290	-	1290
UKG	1290	-	1290
Class I	1390	-	1390
Class II	1390	-	1390
Class III	1490	125	1615
Class IV	1490	125	1615
Class V	1725	125	1850
Class VI	1725	125	1850
Class VII	1890	125	2015
Class VIII	1925	125	2050
Class IX	2390	125	2515
Class X	2490	125	2615

Note: From Class III onwards the monthly total already includes a Rs. 125 Computer Fee. The split is shown here for clarity; the monthly total is the amount charged each month.

5.2 Prospectus Fees (one-time)

Class	Amount (Rs.)
Nursery to Class IX	700
Class XI	1,000

5.3 Admission Charges (one-time, new admissions)

Class	Amount (Rs.)
Nursery	Free
LKG to Class II	2,000
Class III to Class VI	3,000
Class VII to Class IX	5,000

5.4 Term Fees

Term	Due Month	Amount (Rs.)
Term 1	May	1,350
Term 2	October	1,350

Term fees are payable twice a year, in May and October, in addition to the monthly tuition fee.

5.5 How a Bill Is Calculated

The system adds the applicable fee heads for the student:

- Existing student, regular month: Monthly Tuition for the class.
- Existing student, May or October: Monthly Tuition + Term Fee (Rs. 1,350).
- New student: Prospectus Fee + Admission Charge + first month's Tuition (+ Term Fee if admitted in May or October).

5.6 Worked Examples

Case	Calculation (Rs.)	Total (Rs.)
New admission, Nursery, first month	0 + 700 + 1,190	1,890
New admission, Class II, first month	2,000 + 700 + 1,390	4,090
New admission, Class V, first month	3,000 + 700 + 1,850	5,550
New admission, Class VIII, first month	5,000 + 700 + 2,050	7,750
Existing Class IV student, May	1,615 + 1,350	2,965
Existing Class X student, October	2,615 + 1,350	3,965
Existing Class VI student, July	1,850	1,850

Yearly total for an existing student (assuming 12 monthly payments plus two terms), for reference:

Class	12 x Monthly (Rs.)	Plus 2 Terms = Yearly (Rs.)
Nursery	14,280	16,980
LKG / UKG	15,480	18,180
Class I / II	16,680	19,380
Class III / IV	19,380	22,080
Class V / VI	22,200	24,900
Class VII	24,180	26,880
Class VIII	24,600	27,300
Class IX	30,180	32,880
Class X	31,380	34,080

The number of billable months (12 or fewer) will be confirmed by the school (see Section 10).

6. How the System Will Work

6.1 New Admission

1. Office staff open 'New Student' and enter the student's details and class.
2. The system shows the Prospectus Fee, Admission Charge and first month's fee for that class.
3. Staff collect payment and choose the payment mode.
4. The system saves the payment and prints the receipt.
5. The student now appears in the class list with a fee account.

6.2 Monthly Fee Collection

1. A parent arrives at the counter; staff search the student by name or admission number.
2. The screen shows paid months, pending months and the amount due.
3. Staff select the month(s) being paid. Term Fee is added automatically in May and October.
4. Staff enter the amount received. If it is less than the total, the balance remains due.
5. The receipt is printed and the ledger is updated immediately.

6.3 Follow-up on Dues

1. Admin or staff open the Dues report and choose a class or month.
2. The system lists every student with pending fees and the amount.
3. The list is printed for follow-up or exported to Excel.

6.4 End of Day and Reports

At the end of the day, staff or Admin open the Daily Collection report. The total cash and online collection can be matched with the money in hand. Monthly and class-wise reports are available at any time for management.

6.5 New Academic Year

Admin promotes students to the next class and any fee revision is entered once. Previous year records stay available for reference.

7. Quality Requirements

Area	Requirement
Accuracy	Fees are always computed from the stored fee structure; manual totals are not needed.
Ease of use	Simple screens; a new staff member should be able to collect a fee after short training.
Speed	Searching a student and generating a receipt takes only a few seconds.

Area	Requirement
Security	Password-protected access; role-based permissions; payments cannot be silently deleted.
Audit trail	Corrections are recorded with who made them and when.
Reliability	Regular backups; data can be restored after a failure.
Data privacy	Student and parent details are accessible only to authorised users.

8. Assumptions and Scope

8.1 In Scope

- Student records, fee structure, billing, receipts, dues and reports as described above.

8.2 Out of Scope (first version)

- Attendance, exams/results, timetable and other academic modules.
- Staff payroll and school accounting.
- Transport, hostel and uniform/book billing, unless the client requests them.
- Online payment gateway for parents.

8.3 Assumptions

- The school office has a computer and a printer for receipts.
- The fee amounts in Section 5 are correct and current.
- Fees are the same for all students in a class (no scholarship or sibling discount unless confirmed below).

9. Possible Future Enhancements

- Parent login to view dues and download receipts.
- Online payment (UPI / cards).
- SMS or WhatsApp fee reminders.
- Concessions, sibling discounts and scholarships.
- Late-fee calculation.
- Transport and other fee heads.

10. Points the School Needs to Confirm

While preparing the fee structure, the following points were found unclear. Please confirm each so that the system calculates correctly.

#	Question	Client answer
1	Prospectus Fee lists 'Nursery to Class IX' and 'Class XI'. Does Class X have a prospectus fee, or is 'Class XI' meant to be 'Class X'? What is the amount?	There is no admission in class x hence no prospectus fee. But in case admissions take place in class x than fees is at the director's discretion
2	Admission Charges are given up to Class IX. What is charged for admission into Class X (and XI, if the school has it)?	Answered above
3	Monthly fees are given only up to Class X. Does the school run Class XI and XII? If yes, please provide their fees.	Yes class XI and Class XII are non-attending students.
4	Is the Prospectus Fee also charged to Nursery students, even though Admission is free?	Yes,700
5	Is the monthly fee charged for all 12 months or fewer (for example, no fee in vacation months)?	Yes for all 12 months
6	Is the Term Fee identical for every class (Rs. 1,350)?	yes
7	Is any late fee or fine charged for delayed payment? If so, how much and from which date?	Not applicable as of now
8	Are there discounts (sibling, staff child, scholarship)? What are the rules?	Yes will be informed
9	Which payment modes should be recorded (Cash, UPI, Cheque, Bank Transfer)?	All
10	Should the receipt carry the school logo, address, affiliation number and signature line? Please share the details.	Yes
11	Does the school want to bill any other items, such as transport, uniform, books or exam fees?	Yes

11. Approval

By signing below, the client confirms that this document describes the system they require, subject to the answers given in Section 10.
